Why EPAM?

I want to be a part of a big and strong family, like EPAM. Huge amount of experience, many different projects and interesting people attract me to work in this organization.

Skills

- Linux and networking
- Shell, Python
- Docker, Vagrant
- Ansible
- Jenkins
- Git

Work experience

System administrator – 5 years

Deploy local and remote file-servers with Linux/Windows, deploy corporate messenger using eJabberd, NextCloud (like a place to exchange information with clients), OpenVPN and WireGuard VPN-servers, wrote several sites with WordPress and administered office PCs.

The last year I am studying the blockchain testnet. For this moment I have 32 dedicated servers with almost 150 testnet-nodes.

Languages

Russian - native

Ukrainian - advanced

English (B1)

Education

ШАГ, Prog.Kiev.ua, FoxMinded (basic level), University of Cambridge English Examinations в Украине
